CR-00 – Executive Summary

In accordance with the Federal Regulations found in 24 CFR Part 570, the City of Huntington, West Virginia has prepared this Consolidated Annual Performance and Evaluation Report (CAPER) for the period of July 1, 2021 to June 30, 2022. The purpose of the CAPER is to describe the activities undertaken during this time period with funding provided from the U.S. Department of Housing and Urban Development (HUD) under the Community Development Block Grant Program (CDBG), the HOME Investment Partnerships Program (HOME), and the Emergency Solutions Grants Program (ESG).

The projects, activities, and accomplishments described in this CAPER principally benefited low- and moderate-income persons and funding was targeted to neighborhoods in the City with the highest percentage of low- and moderate-income residents. The following is the overall program narrative based on the City of Huntington's Five Year Consolidated Plan and Annual Action Plans, as amended.

There are three (3) basic purposes of the CAPER:

1. It provides HUD with the necessary information for the Department to meet its statutory requirement to assess each grantee's ability to carry out relevant CPD programs in compliance with all applicable rules and regulations.
2. It provides information necessary for HUD's Annual Report to Congress, also statutorily mandated.
3. It provides grantees with an opportunity to describe to citizens their successes in revitalizing deteriorated neighborhoods and meeting objectives stipulated in the Five Year Consolidated Plan.

This document provides information on how the funds received by the City through the HUD programs were used, including an explanation on the leveraging and matching of funds. HOME funds are disbursed between the three (3) member jurisdictions of the Cabell-Huntington-Wayne HOME Consortium: the City of Huntington, Cabell County, and Wayne County.

The City of Huntington continued to work cooperatively with the Huntington Housing Authority and many other community based organizations and neighborhood groups to develop and implement programs that best served the needs of its residents. The Five Year Consolidated Plan served as the blueprint for these efforts and guided the City's activities in its decision-making process when allocating these Federal funds. The following narratives, charts, and statistical reports demonstrate that the City of Huntington is dedicated to serving its residents, particularly those that are low- and moderate-income. A listing of the active projects is found in CR-90 – IDIS Reports of the document.

As a Federal Entitlement Community, the City of Huntington received funding from the U.S. Department of Housing and Urban Development (HUD) through the Coronavirus Aid, Relief, and Economic Security Act (CARES Act), Public Law 116-136 that was passed by the U.S. Congress on March 27, 2020. The City received two (2) allocations of the Community Development Block Grant - Coronavirus (CDBG-CV) and Emergency Solutions Grant - Coronavirus (ESG-CV) funds. The first allocation of the Community Development Block Grant - Coronavirus (CDBG-CV) funds the City received \$1,058,173 and in the first allocation of the Emergency Solutions Grant - Coronavirus (ESG-CV) funds the City received \$538,314. The City then received a notice that the City would receive another allocation of funds. In the third allocation of funds from HUD for the

Community Development Block Grant - Coronavirus (CDBG-CV) Program the City received \$264,852 and \$559,361 in Emergency Solutions Grant – Coronavirus (ESG-CV) funds. The City between both allocations received a total of \$1,323,025 in Community Development Block Grant – Coronavirus (CDBG-CV) and \$1,097,675 in Emergency Solutions Grant – Coronavirus (ESG-CV). These funds were included as part of the City’s FY 2019 Annual Action Plan, as amended.

- The infrastructure improvement activities are either located in a low- and moderate-income census tract/block group or have a low- and moderate-income service area benefit or clientele over 51% low- and moderate-income.
- Funding for public services will be based on the clientele’s income or in certain cases a limited type of clientele with a presumed low- and moderate-income status.
- The homeless projects/activities are for homeless agencies/organization that serve a specific type of clientele with a presumed low- and moderate-income status.
- The other special needs projects/activities are limited to a clientele with a presumed low- and moderate-income status.
- Demolition of structures will either be located in low- and moderate-income areas or in areas that have been designated as slum and blighted areas.
- The housing activities have income eligibility criteria; therefore, the income requirement directs funds to low- and moderate-income households throughout the City.

CR-25 – Homeless and Other Special Needs 91.220(d, e); 91.320(d, e); 91.520(c)

Evaluate the jurisdiction's progress in meeting its specific objectives for reducing and ending homelessness through:

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

Under its Five-Year Consolidated Plan, the City of Huntington developed its Strategic Plan in cooperation with the CoC to address homelessness for FY 2020 through 2024. These goals are set forth in the following priorities:

- **HMS-1 Continuum of Care** - Support the local Continuum of Care's (CoC) efforts to provide emergency shelter, and permanent supportive housing to persons and families who are homeless or who are at risk of becoming homeless.
- **HMS-2 Operation/Support** - Assist providers in the operation of housing and support services for the homeless and persons at-risk of becoming homeless.
- **HMS-3 Prevention and Housing** - Continue to support the prevention of homelessness through anti-eviction activities and programs for rapid re-housing.
- **HMS-4 Housing** - Support the rehabilitation of and making accessibility improvements to emergency shelters, transitional housing, and permanent housing for the homeless.
- **HMS-5 Permanent Housing** - Support the development of permanent supportive housing for homeless individuals and families.

To engage homeless individuals, especially the unsheltered homeless in Huntington, the PATH Outreach Program was established to link those in need to the appropriate agencies. Weekly PATH meetings have provided guidance to homeless individuals and families who do not know where to go.

The City of Huntington continued to support the Coalition for the Homeless and other agencies of the Cabell-Huntington-Wayne Continuum of Care who wished to seek funds for supportive services needed for housing stabilization of families at-risk of homelessness. The City provided \$5,000.00 in CDBG funds to both Coalition for the Homeless and Information & Referral Services for homeless outreach activities.

The Cabell-Huntington-Wayne CoC's Housing First Committee continued to identify, assess, and place homeless individuals in housing through supportive services. The Committee, which is comprised of direct service staff from various homeless services provider agencies, continued to encourage self-sufficiency and provided supportive services to keep homeless individuals in their homes and prevent further homelessness.

Addressing the emergency shelter and transitional housing needs of homeless persons

Emergency housing needs were met through the Huntington City Mission (HCM), which is the area's emergency shelter. Upon entering the HCM, each adult goes through an admission and intake process so that the services they utilize are tracked through the CHWCoC HMIS system. Individuals were encouraged to get out into the community and connect with the services that they need; they were provided with a

tracking card which verifies the agencies to which the individuals have visited. The goal was to move individuals out of the Mission and into a housing situation that best fits their needs as quickly as possible.

While the Continuum of Care does not fund transitional housing programs, the CoC is prioritizing permanent housing solutions with supports. The CoC has expanded and will continue to increase rapid rehousing with housing location and stabilization. The CoC launched a Targeted Rapid Rehousing team that focuses on persons 55+. The CoC includes the Huntington City Mission and two (2) safe havens for overnight emergency shelter. The day shelter, Harmony House, has both United Way and FEMA funding to cover the costs of shelter in a local motel temporarily, when the Mission is full and the household includes children or when there are threats to safety.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: likely to become homeless after being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); and, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs

Information and Referral (I&R) is the local 211 organization. This is the clearing house agency for linking people with needs to the appropriate community resources to meet their needs. The agency provides connections to basic needs which may defer individuals and families from becoming homeless. Agency representation is also part of the weekly Housing First subcommittee meetings during which time agency representatives gather to discuss individuals that have been identified with needs and connect those individuals with services that are available through the various agencies being represented. I&R recently launched a privately funded homeless prevention program that provides supportive services to persons who have not yet become homeless. Additionally, they will expand this program through CoC funding that will be available 8/1.

Members of the Housing First subcommittee also assist individuals with applications for mainstream resources to assist them in addressing their particular need. The revamped Care Coordination to Community Engagement Specialist movement focuses on assisting individuals in remaining in their housing by providing support services, maintaining intensity of services that are needed and reducing intensity as the need reduces but continuing to provide support as long as necessary to keep individuals housed. Individuals being discharged from psychiatric hospitals are particularly targeted for these services; however, these services are also available for other homeless, chronic homeless, or those who are near homelessness.

Once an individual is on the CES roster, or on another supportive services team roster, their needs are individually reviewed, and they are connected with the services that they need in order to be permanently housed in their community. This also includes mainstream resources needed, employment programs, primary care, mental health, or other specific needs identified by the team. The CHWCoC utilizes a centralized assessment to identify needs and to also rank individuals so that those with the most needs are prioritized for immediate assistance.

The CoC created a subcommittee to address issues with the discharge planning processes at hospitals, jails, and mental health institutions. The subcommittee has also been successful in reducing inappropriate

discharges and educating social workers and discharge planners on community resources. The youth program described above has a strong prevention component and conducts outreach in local schools.

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

Utilizing the Housing First Model, homeless individuals and families are housed as soon as they are eligible for housing, based on a centralized assessment, as well as housing availability. Prior to housing, homeless individuals/families are assigned to a supportive services team which continues to provide support to them once they obtain their housing. This model has been effective in housing retention.

The CoC is focused on maximizing support for those transitioning to permanent housing. Nine (9) programs provide support to those moving into permanent housing. Southwestern Community Action Council and Volunteers of America both operate SSVF programs. Pretera Center, in collaboration with Harmony House, operates a supportive service only program for those who are chronic or high acuity. Pretera Center operates a Community Engagement Specialist program to support those with a serious mental illness and reduce the likelihood that they will return to mental health hospitalizations and lose housing. The Huntington Housing Authority operates a Community Engagement Specialist program focused on housing high acuity persons and keeping them housed long-term. Harmony House operates a SAMHSA-funded CABHI program, which consists of a multi-disciplinary, peer-driven team that serves those who are chronic and high acuity. Individuals are housed and provided with intensive support. Information and Referral recently launched a privately funded program that provides community engagement and housing support to prevent homelessness. Lastly, Harmony House operates a rapid rehousing program that includes housing location and stabilization services. The programs are funded by three different grants (2 CoC and one ESG). Harmony House has partnered with United Way, Pretera Center, and Marshall University to launch a resource center for homeless and at-risk youth that opens next week. These programs enable the CoC to house people quickly and serve all different subpopulations.

The City of Huntington is committed to removing or reducing barriers to the development of affordable housing whenever possible throughout the City. Actions taken to address obstacles to meeting underserved needs. 91.220(k); 91.320(j)

Despite efforts made by the City of Huntington and social service providers, a number of significant obstacles to meeting underserved needs remain. Because resources are scarce, funding becomes the greatest obstacle. Insufficient funds limit the availability of many worthy public service programs, activities, and agencies. Planning and effective use of these limited resources is critical in addressing Huntington's needs and improving the quality of life of its residents. The follow obstacles need to be overcome in order to meet underserved needs:

- Higher unemployment rate compared to the State and national average, loss of household income due to the economic decline nationally.
- Lack of supply of decent, sound, and affordable rental housing for low-income families.
- The larger amount of foreclosed and abandoned housing that affects certain residential neighborhoods.
- Aging population in place and the increased need for removal of architectural barriers in the City's older housing stock.
- Growing homeless population and lack of resources.

Actions taken to develop institutional structure. 91.220(k); 91.320(j)

The City of Huntington's CDBG, HOME, and ESG programs were administered by the City of Huntington's Department of Development and Planning. The Department ensured compliance through monitoring of its sub-recipients. The City coordinated with these agencies to ensure that they perform in the time frame that was stated in their agreement. The Development and Planning Department staff meet regularly with these agencies to help coordinate activities among these agencies.

Historically, the largest gap in the institutional structure was the lack of communication. This has been overcome through regular meetings and involvement and support by the City's staff in the Continuum of Care Organization. This has proven to be a forum for the exchange of ideas and for problem solving. The City's staff also coordinated its activities and programs with the Huntington Housing Authority. The Huntington Housing Authority, through its Housing Development Corporation, and the City of Huntington have a strong cooperative partnership by building houses for sale and new rental housing units for low- and moderate-income families.

The key agencies that are involved in coordination of the City's resources are described below.

Goal: The City’s Zoning Code and land development policies will promote and affirmatively further fair housing.

Strategies: In order to meet this goal, the following activities and strategies should be undertaken:

- **2-A:** The City should review the City’s Zoning Ordinance and Building Codes for compliance with the Fair Housing Act, as amended.
- **2-B:** Continue to revise and update definitions and add new definitions for the words: “Family,” “Handicap (Disabled),” “Fair Housing Act,” “Accessibility,” “Visitability,” etc.
- **2-C:** Annually review the City’s zoning ordinance and land development controls to be consistent with the City’s goal to affirmatively further fair housing.

FY 2021 Accomplishments:

The City provided funding for the following activities under FY 2021 to address the above impediment:

- **CD-21-01 CDBG General Administration** – Expenses were paid to administer the Community Development Block Grant. This covered staff salaries and benefits, office expenses, planning services, and other facets of program management.
- **CD-21-09 Volunteer Rehabilitation Program – World Changers:** The City provided assistance in cooperation with World Changers and other volunteer groups to make repairs for homeowners who qualified according to income limits set by the US Dept. of Housing and Urban Development. The City of Huntington paid for the materials, while the labor was provided by the World Changers. All repairs were made according to the City’s codes and inspected by the City Building Inspector.

Impediment 3: Continuing Need for Affordable and Accessible Housing Units - There is a lack of affordable and accessible housing units in the City of Huntington as the supply of affordable and accessible housing has not kept pace with the demand of individuals desiring to live independently.

Goal: Construction rehabilitation, and development of additional affordable rental and owner occupied housing units in the area, especially for households whose income is less than 80% of the median income will increase annually to meet the demand for housing.

Strategies: In order to meet this goal, the following activities and strategies should be undertaken:

- **3-A:** Support and encourage both private and non-profit housing developers to undertake plans for the construction of new affordable and accessible renter and owner occupied housing that would be located in areas that provide access to employment opportunities, transportation, amenities, and services throughout the City.
- **3-B:** Support and encourage the rehabilitation of existing housing units in the City to become decent, safe, and sound renter and owner occupied housing that is affordable and accessible to lower income households.
- **3-C:** Continue to enforce the ADA and Fair Housing requirements for landlords to make “reasonable accommodations” to their rental properties so units become accessible to tenants who are disabled, as well as educating the disabled how to request special accommodations.

- **CD-21-10 Emergency Housing Rehab:** The City provided assistance for the Emergency Housing Rehab program, which is a 0% interest loan program to qualifying homeowners for installation of roofs, soffit, gutters, electrical upgrades, plumbing, etc.

Impediment 4: Private Lending and Insurance Practices - The Home Mortgage Disclosure Act (HMDA) data suggests that there is a disparity between the approval rates of home mortgage loans originated from White and those originated from Minority applicants.

Goal: Approval rates for all originated home mortgage loans and insurance coverage should be fair, risk based, unbiased, and impartial, regardless of race, familial status and location.

Strategies: In order to meet this goal, the following activities and strategies should be undertaken:

- **4-A:** Federal, state, local, and private funding should be used to provide a higher rate of public financial assistance to potential homebuyers in lower income neighborhoods to improve loan to value ratios, so that private lenders will increase the number of loans made in these areas.
- **4-B:** Monitoring of the HMDA data should be accomplished periodically for compliance with the Fair Housing Act by an outside independent agency.

CR-40 – Monitoring 91.220 and 91.230

Describe the standards and procedures used to monitor activities carried out in furtherance of the plan and used to ensure long-term compliance with requirements of the programs involved, including minority business outreach and the comprehensive planning requirements

The City of Huntington's Department of Development and Planning had the primary responsibility for monitoring the City's Annual Action Plan. The Department of Development and Planning maintained records on the progress toward meeting the goals and on the statutory and regulatory compliance of each activity. The Department of Development and Planning was responsible for the ongoing monitoring of sub-recipients.

For each activity authorized under the National Affordable Housing Act, the City had established fiscal and management procedures that ensured program compliance and fund accountability. Additionally, the Department ensured that the reports to the U.S. Department of Housing & Urban Development (HUD) were complete and accurate. The programs were subject to the Single Audit Act.

For projects, other than CDBG funded activities, a similar reporting format was used to monitor the Annual Action Plan progress for HOME and ESG activities.

The City of Huntington provided residents with reasonable notice of, and the opportunity to comment on its Annual Action Plan in its performance under previously funded CDBG Program Years, and substantial amendments to the Five Year Consolidated Plan and Annual Action Plans.

The City of Huntington responded within fifteen (15) days in writing to any written complaints or inquiries from citizens in regard to the CDBG Program, HOME Program, and ESG Program, its housing strategy, or its CAPER. This is enumerated in its Citizen Participation Plan.

The City of Huntington and its sub-recipients complied with the requirements and standards of 24 CFR Part 225, which is the cost principles for state and local governments and their subrecipients. In addition, the City had written agreements with each of its sub-recipients.

The City monitored its performance with meeting its goals and objectives with its Five Year Consolidated Plan. It reviewed its goals on an annual basis in the preparation of its CAPER and made adjustments to its goals as needed.

The City did not have a timeliness of expenditures problem. The City abides by the Federal cost principals and expenditures. In the expenditures of the CDBG and HOME funds for housing construction or project improvements, the City's inspectors made periodic on-site inspections to ensure compliance with the local housing codes. The City also required submittal of architectural drawings, site plans, and work specifications for those projects. Those were reviewed prior to issuance of building permits and the distribution of CDBG funds and/or HOME funds.

CR-90 – Fair Housing

Affirmatively Furthering Fair Housing Overview:

The City has monitored and reviewed public policies for discriminatory practices and/or impacts on housing availability. To promote fair housing, the City of Huntington proclaimed April 2021 to be “Fair Housing Month.” A copy of the proclamation is attached at the end of the section. The Huntington Housing Authority continued to include fair housing flyers and documentation in all tenant packets.

During FY 2021, the City of Huntington addressed the following impediments to fair housing choice, based off of the City’s 2020-2024 Analysis of Impediments to Fair Housing Choice.

Impediment 1: Fair Housing Education and Outreach - There is a need to educate members of the community concerning their rights and responsibilities under the Fair Housing Act and to raise awareness, especially for low-income households, that all residents of the City have a right under federal law to fair housing choice.

Goal: Improve the public’s knowledge and awareness of the Federal Fair Housing Act, and related laws, regulations, and requirements to affirmatively further fair housing in the City.

Strategies: In order to meet this goal, the following activities and strategies should be undertaken:

- **1-A:** Continue to promote Fair Housing awareness through the media and with assistance from local/regional social service agencies, by providing educational awareness/opportunities for all persons to learn more about their rights and requirements under the Fair Housing Act and Americans with Disabilities Act.
- **1-B:** Continue to make available and distribute literature and informational material concerning fair housing issues and an individual’s rights.
- **1-C:** Educate landlords on their responsibilities to make reasonable accommodations for disabled tenants.
- **1-D:** Update the information on the City’s website about whom to contact and how to file a fair housing complaint, as well as general Fair Housing information for homeowners and renters.
- **1-E:** Strive for better intergovernmental cooperation between Federal, State, County, and local partners, as well as community groups and developers, to effectively identify and address potential barriers to affordable housing choice.

FY 2021 Accomplishments:

The City provided funding for the following activities under FY 2021 to address the above impediment:

- **CD-21-01 CDBG General Administration:** The City provided assistance to administer the Community Development Block Grant in the form of staff salaries and benefits, office expenses, planning services, and other facets of program management.
- **CD-21-02 Information & Referral Services:** The City provided assistance to provide emergency assistance to homeless and near homeless persons providing them with referral and information regarding facilities and services.

Impediment 2: Public Policies and Regulations - The City's Zoning Code needs additional definitions, provisions, and revisions to be compliant with the Federal Fair Housing Act, Section 504, and the Americans with Disabilities Act, to affirmatively further fair housing.

Goal: The City's Zoning Code and land development policies will promote and affirmatively further fair housing.

Strategies: In order to meet this goal, the following activities and strategies should be undertaken:

- **2-A:** The City should review the City's Zoning Ordinance and Building Codes for compliance with the Fair Housing Act, as amended.
- **2-B:** Continue to revise and update definitions and add new definitions for the words: "Family," "Handicap (Disabled)," "Fair Housing Act," "Accessibility," "Visitability," etc.
- **2-C:** Annually review the City's zoning ordinance and land development controls to be consistent with the City's goal to affirmatively further fair housing.

FY 2021 Accomplishments:

The City provided funding for the following activities under FY 2021 to address the above impediment:

- **CD-21-01 CDBG General Administration** – Expenses were paid to administer the Community Development Block Grant. This covered staff salaries and benefits, office expenses, planning services, and other facets of program management.
- **CD-21-09 Volunteer Rehabilitation Program – World Changers:** The City provided assistance in cooperation with World Changers and other volunteer groups to make repairs for homeowners who qualified according to income limits set by the US Dept. of Housing and Urban Development. The City of Huntington paid for the materials, while the labor was provided by the World Changers. All repairs were made according to the City's codes and inspected by the City Building Inspector.

Impediment 3: Continuing Need for Affordable and Accessible Housing Units - There is a lack of affordable and accessible housing units in the City of Huntington as the supply of affordable and accessible housing has not kept pace with the demand of individuals desiring to live independently.

Goal: Construction rehabilitation, and development of additional affordable rental and owner occupied housing units in the area, especially for households whose income is less than 80% of the median income will increase annually to meet the demand for housing.

Strategies: In order to meet this goal, the following activities and strategies should be undertaken:

- **3-A:** Support and encourage both private and non-profit housing developers to undertake plans for the construction of new affordable and accessible renter and owner occupied housing that would be located in areas that provide access to employment opportunities, transportation, amenities, and services throughout the City.
- **3-B:** Support and encourage the rehabilitation of existing housing units in the City to become decent, safe, and sound renter and owner occupied housing that is affordable and accessible to lower income households.

- **3-C:** Continue to enforce the ADA and Fair Housing requirements for landlords to make “reasonable accommodations” to their rental properties so units become accessible to tenants who are disabled, as well as educating the disabled how to request special accommodations.

FY 2021 Accomplishments:

The City provided funding for the following activities under FY 2021 to address the above impediment:

- **CD-21-02 Information & Referral Services:** The City provided assistance to provide emergency assistance to homeless and near homeless persons providing them with referral and information regarding facilities and services.

Impediment 4: Private Lending and Insurance Practices - The Home Mortgage Disclosure Act (HMDA) data suggests that there is a disparity between the approval rates of home mortgage loans originated from White and those originated from Minority applicants.

Goal: Approval rates for all originated home mortgage loans and insurance coverage should be fair, risk based, unbiased, and impartial, regardless of race, familial status and location.

Strategies: In order to meet this goal, the following activities and strategies should be undertaken:

- **4-A:** Federal, state, local, and private funding should be used to provide a higher rate of public financial assistance to potential homebuyers in lower income neighborhoods to improve loan to value ratios, so that private lenders will increase the number of loans made in these areas.
- **4-B:** Monitoring of the HMDA data should be accomplished periodically for compliance with the Fair Housing Act by an outside independent agency.

FY 2021 Accomplishments:

The City provided funding for the following activities under FY 2021 to address the above impediment:

- **CD-21-01 CDBG General Administration:** The City provided assistance to administer the Community Development Block Grant in the form of staff salaries and benefits, office expenses, planning services, and other facets of program management.
- **CD-21-07 Huntington Fire Department – New Fire Station:** Funds will be used to build a new Fire Station. (Multi-year project)
