Project Overview

Recipients are required to enter projects funded through SLFRF funds as part of their Project and Expenditure Report. Projects can be entered, viewed, and updated from this screen.

All projects, regardless of Expenditure Category, require a set of “standard” data fields. Some of these fields, such as project name and project ID, are static and do not change across reporting periods. Other fields, such as status of completion and total obligations, will change across reporting periods.

Note: Bulk Upload templates will appear once you have selected the Project Expenditure Category

Entries for EC 7.4 Transfers to NEUs, will be collected separately as part of the NEU/Non UGLG module. You will not be required to enter projects under EC 7.4.

To submit a report if no projects identified, please follow the below instructions:

1. Select "No Projects Available" from the Project Expenditure Category Group
2. Enter in a Project Name of your choosing and complete the Project Description field describing the reason no projects have been approved for your jurisdiction.

You may need to refresh your browser screen to see your new entries.

Click on the project status to edit, save or delete
