INDEPENDENT AUDITOR'S REPORT

February 28, 2018

City of Huntington
800 Fifth Avenue
Huntington, WV 25717

To the Members of Council:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the discretely presented component units and the aggregate remaining fund information of the **Municipality of Huntington**, West Virginia (the City), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We did not audit the financial statements of the Huntington Water Quality Board. Those statements were audited by other auditors whose report has been furnished to us, and in our opinion, insofar as it relates to the amounts included for the Huntington Water Quality Board, is based solely on the report of the other auditors. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the City's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the City's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the discretely presented component units and the aggregate remaining fund information of the Municipality of Huntington, West Virginia, as of June 30, 2017, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparisons for the General and Coal Severance Tax Funds thereof for the year then ended in accordance with the accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include the Management's Discussion and Analysis, Schedule of Funding Progress for Other Postemployment Benefits and the Schedule of Employer Contributions for Other Postemployment Benefits, Schedules of Changes in the Net Pension Liability and Related Ratios, Schedule of Investment Returns and the Schedules of Contributions Multiyear for the Police and Fire Pension Relief Funds, Schedules of the City's Proportionate Share of the Net Pension Liability and the Schedules of City Contributions on pages 78 - 84 listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the City's basic financial statements taken as a whole.

The Schedule of Expenditures of Federal Awards presents additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards and is not a required part of the financial statements.

Also, the supplementary information of the individual and combining fund financial statements for the special revenue, capital projects, debt service and agency funds, the discretely presented component unit fund financial statements for the Municipal Development Authority and the Municipal Parking Board and the introductory sections are presented for purposes of additional analysis and are not a required part of the basic financial statements of the City.

This information is management's responsibility, and derives from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected the schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling the schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated February 28, 2018, on our consideration of the City's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Management's discussion and analysis of the City of Huntington's financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2017. This information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Please read this discussion and analysis in conjunction with the City's basic financial statements, which immediately follow this section.

Financial Highlights

The City of Huntington's liabilities plus deferred inflows of resources exceeded assets plus deferred outflows of resources by \$221,916,917 (net position deficit) at the close of fiscal 2017. For fiscal year 2017, net position decreased by \$10,056,304 and \$102,914 in the governmental activities and the business-type activities, respectively.

As of the close of the current fiscal year, governmental funds reported combined ending fund balance of \$15,174,508, an increase of \$787,503 over the prior year. As of the close of the current fiscal year, business-type activities reported combined net position of \$335,128, a decrease of \$102,914 over the prior year.

Overview of the Financial Statements

This discussion and analysis introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund level financial statements, and (3) notes to the financial statements. The City also includes additional information in this report to supplement the basic financial statements.

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, although the latter are excluded from the government-wide financial statements.

As noted previously, for fiscal year 2017, net position decreased by \$10,056,304 and \$102,914 in the governmental activities and the business-type activities, respectively. Total primary government revenues were \$58,330,173 with total expenses of \$68,489,391.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities. The City uses funds to demonstrate and ensure compliance and fiscal accountability. All of the funds of the Government can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. In governmental and proprietary fund financial statements, major funds are discretely reported while others are combined into a single aggregated presentation.

Governmental Funds

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due. Property taxes, franchise taxes, interest and special assessments are susceptible to accrual. Also, certain taxpayer-assessed revenues such as business and occupation and utility taxes are accrued as revenue at year end. Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

Proprietary Funds

The City charges fees to customers to help cover the cost of certain services it provides. The City's Civic Arena and Sanitations and Trash funds are included here.

Fiduciary funds

Fiduciary funds such as employee pension plans and agency funds are reported as fiduciary in the fund financial statements, but are excluded from the government- wide reporting. Fiduciary fund financial statements report resources that are not available to City programs.

The pension trust funds account for the resources that are required to be held in trust for the members and beneficiaries of defined benefit plans. These funds are accounted for in essentially the same manner as the proprietary funds, using the same measurement focus and basis of accounting.

The Agency funds are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. These funds are used to account for assets that the City of Huntington holds for others in an agency capacity.

Notes to the Financial Statements

The accompanying notes to the financial statements provide information essential for a full understanding of the government-wide and fund level financial statements. The notes to the financial statements begin immediately following the basic financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents required supplementary information concerning the City's progress in funding its obligations to provided pension benefits and other post-employment benefits (OPEB) to its employees.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Major funds and component units are reported in the basic financial statements as discussed. Combining and individual schedules for non-major and fiduciary funds are presented in a subsequent section of this report.

Government-wide financial analysis

The City's net position at June 30, 2017 is \$(221,916,917), a decrease of \$10,159,218 compared to June 30, 2016 net position. Net position decreased by \$10,056,304 for governmental activities and \$102,914 for business-type activities.

Total revenues increased by \$573,753 in comparison to prior year primarily from additional charges for services and tax collections.

Overall expenses and transfers out decreased by \$2,578,297 in comparison to prior year primarily from reductions in general government and public safety expenditures for the year.

Graphic presentations of the Summary of Changes in Net Position for the primary government follow to assist in the analysis of the City's activities for fiscal year 2017.

Financial Analysis of the Government's Funds

The City reports the following major governmental funds:

General Fund-The General fund is the government's primary operating fund. It accounts for all financial sources of the general government, except those required to be accounted for in another fund. At the end of the current fiscal year, fund balance for the General fund was \$4,931,331, an increase of \$946,505 during the year. Key factors in the increase were the decrease in General fund expenditures as compared to the prior year. See General fund budgetary highlights for more information.

Coal Severance Fund-The Coal Severance Tax fund, a special revenue fund, accounts for revenues and expenditures from a severance tax placed on coal that is distributed to West Virginia municipalities. These revenues are dedicated to culture and recreation expenditures. The fund balance of the Coal Severance fund increased by \$11,756 to \$49,243 during fiscal year 2017.

Community Development Block Grant (CDBG) Fund-The Community Development Block Grant fund (CDBG) a special revenue fund, accounts for the CDBG Entitlement Program. The CDBG Entitlement Program provides grants to metropolitan areas and urban counties for community development. The CDBG fund balance decreased \$282,262 during the year.

The City's governmental funds reported a combined ending fund balance of \$15,174,508 this year. This compares to the prior year combined ending fund balance of \$14,387,005 for an increase of \$787,503. Total unassigned governmental fund balance is \$2,115,614 for fiscal year 2017.

Proprietary Funds

The government reports the following major proprietary funds:

Sanitation and Trash Fund

The Sanitation and Trash fund serves the City by providing garbage collection and disposal services to the public. Net position in the Sanitation and Trash fund balance decreased \$124,040 during the year. The decrease is primarily due to operating expenses in excess of revenues from charges for services.

Civic Arena Fund

The Civic Arena fund accounts for operating activities of the Big Sandy Superstore Arena. Net position in the Civic Arena fund balance increased \$21,126 during the year. The increase is primarily due to an increase in events held at the Arena.

In addition to the primary government, the City reports three discretely presented components units. Discretely presented component units are entities which are legally separate from the City, but are financially accountable to the City, or whose relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. Because of the nature of services they provide and the City's ability to impose its will on them or a financial benefit/burden relationship exists, the following component units are discretely presented. The discretely presented component units are presented on the government-wide statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

The *Huntington Municipal Development Authority* serves the City of Huntington, West Virginia, and is governed by a Board comprised of fifteen members appointed by the City that includes three business representatives, three industry representatives, three labor representatives, one member of the council and five additional representatives. The Municipal Development Authority develops property on behalf of the City and also provides services to external parties. The rates for user charges and bond issuance authorization are approved by the government's elected council.

The *Municipal Parking Board* serves all citizens of the City by providing parking services and is governed by a seven-member board appointed by the City. The rates for user charges and bond issuance authorization are provided by the government's elected council.

The *Water Quality Board* serves all citizens of the City of Huntington and is governed by a three-member board comprised of the Mayor and two members appointed by the City. The rates for user charges and bond issuance authorizations are approved by the government's elected council.

Complete financial statements for the Water Quality Board can be obtained at the entity's administrative offices.

General Fund Budgetary Highlights

During the year, the City revised the General Fund budget. Differences in expenditures and other financing uses between the original and the final amended budget are primarily due to mid-year supplements for unanticipated expenditures and unspent amounts carried forward from prior years. The difference between the original budget and the final amended budget was an increase of approximately \$8.04 million or 16% of the total general fund expenditures.

Capital asset and debt administration

Capital assets, which include property, plant, and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and estimated to have a useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 787,503
Capital outlays are reported as an expenditure in the governmental funds, but are considered an asset at the government-wide level. This is the amount of capital assets increased during the fiscal year.	1,173,512
Capital outlays are reported as an expenditure in the governmental funds. In the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount of depreciation expense charged during the year.	(1,522,423)
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. This is the difference between prior and current year unavailable unearned revenues.	
Prior year deferred taxes	(368,584)
Current year deferred taxes	420,496
Certain pension expenses in the statement of activities are recognized on the accrual basis of accounting in accordance with GASB 68.

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES AND CHANGES IN FUND BALANCES OF
GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

The repayment of long-term debt (e.g., bonds, leases) uses financial resources of governmental funds, however, this has no effect on net position. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This is the amount of principal paid, and additions and reductions to deferred discounts or premiums, on long-term debt for the fiscal year.

Tax increment financing revenue bonds	\$	113,043
Capital leases		836,748

Accrued interest is required to be reported as a liability in the statement of net position of the district-wide financial statements. The following represents the change in accrued interest payable for the year.		7,174
--	--	-------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the City of Huntington, West Virginia (the City), conform to generally accepted accounting principles as applicable to governmental units. The following is a summary of significant accounting policies:

A. Reporting Entity

The City of Huntington is a municipal corporation governed by an elected mayor and eleven member council. The accompanying financial statements present the government and its component units as required by generally accepted accounting principles.

The services provided by the government and accounted for within these financial statements include law enforcement for the City, health and sanitation services, cultural and recreational programs, and other governmental services.

The accompanying financial statements present the government and its component units, as required by the accounting principles generally accepted in the United States. In determining whether to include a governmental department agency, commission or organization as a component unit, the government must evaluate each entity as to whether they are legally separate and financially accountable based on the criteria set for the by the Governmental Account Standards Board (GASB). Legal separateness is evaluated on the basis of (1) its corporate name, (2) the right to sue and be sued and (3) the right to buy, sell or lease and mortgage property. Financial accountability based on (1) the appointment of the government authority and (2) the ability to impose will or (3) the providing of specific financial benefit or imposition of specific financial burden. Another factor to consider in this evaluation is whether an entity is fiscally dependent on the City.

Discretely Presented Component Units

Discretely presented component units are legally separate from the City, but are financially accountable to the City, or whose relationship with the City is such that exclusion would cause the City's financial statements to be misleading or incomplete. Because of the nature of services they provide and the City's ability to impose its will on them or a financial benefit/burden relationship exists, the following component units are discretely presented in accordance with GASB Statement No. 61. The discretely presented component units are presented on the government-wide statements.

The *Huntington Municipal Development Authority* serves the City of Huntington, West Virginia, and is governed by a board comprised of fifteen members appointed by the City and is comprised of three business representatives, three industry representatives, three labor representatives, one member of the council and five additional representatives. The Municipal Development Authority develops property on behalf of the City and also provides services to external parties. The rates for user charges and bond issuance authorization are approved by the government's elected council.

The *Municipal Parking Board* serves all citizens of the City by providing parking services and is governed by a seven-member Board appointed by the City. The rates for user charges and bond issuance authorization are approved by the government's elected council.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

The *Water Quality Board* serves all citizens of Huntington and is governed by a three-member board comprised of the Mayor and two members appointed by Council. The rates for user charges and bond issuance authorizations are approved by the government's elected council.

Complete financial statements for the Water Quality Board can be obtained at the entity's administrative offices.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the primary government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase use, or directly benefit from goods, services, or privileges provided by grants and contributions that are restricted to meeting a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. Combining financial statements for the nonmajor governmental funds and for the discretely presented component units are included as supplementary information.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied and collectible. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collectible within 60 days of the end of the current fiscal period. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Property taxes, franchise taxes, interest and special assessments are susceptible to accrual. Also, certain taxpayer-assessed revenues such as business and occupation and utility taxes are accrued as revenue at year end. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. Other receipts and taxes become measurable and available when cash is received by the government and are recognized as revenue at that time.

Entitlements and shared revenues are recorded at the time of receipt or earlier if the susceptible to accrual criteria are met. Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other grant requirements have been met.

Amounts reported as program revenues include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the Sanitation and Trash and the Civic Arena Fund (enterprise funds), Municipal Development Authority and Municipal Parking Board (discretely presented component units) are charges to customers for services. Operating expenses for the enterprise funds include the cost of services, administrative expenses, and depreciation of capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

The government reports the following major governmental funds:

The *General Fund* is the government's primary operating fund. It accounts for all financial services of the general government, except those required to be accounted for in another fund.

The *Coal Severance Tax Fund*, a special revenue fund, accounts for revenues and expenditures from a severance tax placed on coal that is distributed to West Virginia municipalities.

The *Community Development Block Grant Fund*, a special revenue fund, accounts for the CDBG Entitlement Program. The CDBG Entitlement Program provides grants to metropolitan areas and urban counties for community development.

The government reports the following major proprietary funds:

The *Sanitation and Trash Fund* serves the City by providing garbage collection and disposal services to the public.

The *Civic Arena Fund* accounts for operating activities of the City's civic arena.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Additionally, the government reports the following fund types:

The *Pension (and other employee benefit) Trust Funds* account for the resources that are required to be held in trust for the members and beneficiaries of defined benefit plans or other employee benefit plans. These funds are accounted for in essentially the same manner as the proprietary funds, using the same measurement focus and basis of accounting.

The *Agency Funds* are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. These funds are used to account for assets that the City of Huntington, West Virginia holds for others in an agency capacity.

D. Assets, Deferred Outflows, Liabilities, Deferred Inflows, and Net Position

1. Deposits and Investments

The City of Huntington, West Virginia's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of less than three months from the date of acquisition. For purposes of the Statements of Cash Flows, restricted assets may be considered cash equivalents based on liquidity.

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the City reports its investments at fair value, except for non-participating investment contracts (certificates of deposit and repurchase agreements) which are reported at cost, which approximates fair value. All investment income, including changes in fair value of investments, are recognized as revenue in the operating statement. Fair value is determined by quoted market prices.

Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Managed funds related to the retirement system not listed on an established market are reported as estimated fair value as determined by the respective fund managers based on quoted sales prices of underlying securities. Cash investments and fair values are presented in Note III.A.

State statutes authorize the government to invest in the State Investment Pool or the Municipal Bond Commission or to invest such funds in the following classes of securities: Obligations of the United States or any agency thereof, certificates of deposit (which mature in less than one year), general and direct obligations of the State of West Virginia; obligations of the Federal Mortgage Association; indebtedness secured by first lien deeds of trust for property situated within this State if the payment is substantially insured or guaranteed by the Federal government; pooled mortgage trusts (subject to limitations); indebtedness of any private corporation that is properly graded in the top three ratings, at the time of acquisition; interest earning deposits which are fully insured or collateralized; and mutual funds registered with the S.E.C. which have fund assets over three hundred million dollars.

State statute §8-13-22c places limitations on the aforementioned investments include the following: at no time can investment portfolios consist of more than seventy-five percent of the indebtedness of any private corporation nor can the portfolio have over twenty-five percent of its portfolio consisting of the indebtedness of a private corporation's debt which matures in less than one year; at no time may more than five percent of the portfolio be invested in securities issued by a single private corporation or association; and at no time can more than sixty percent of the portfolio be invested in equity mutual funds.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Municipal pension Funds are governed as to type of investment by *West Virginia Code* §8-22-22. Pension funds are permitted to invest in all of the above mentioned types of investments with the exception of (1) direct and general obligations of the State and (2) pooled mortgage trusts. Additionally, pension funds are permitted to invest funds in the following categories of investments: (1) repurchase agreements and (2) common stock, securities convertible into common stocks, or warrants and rights to purchase such securities. Pension funds have different rules concerning the purchase of marketable debt securities.

The following restrictions apply only to pension portfolios and are separate and distinct from the limitations mentioned above: (1) fixed income securities which are issued by one issuer (with the exception of the United States government) are not to exceed five percent of the total pension fund assets; and (2) at no time can the nonreal estate equity portion of the portfolio exceed seventy-five percent of the total portfolio.

2. Receivables and Payables

Interfund Transactions

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either “interfund receivables or payables” (i.e., the current portion of interfund loans) or “advances to/from other funds” (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as “due to/from other funds.” Any residual balance outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as “internal balances”.

Trade Receivables

All trade receivables are shown at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible.

Property Tax Receivable

All current taxes assessed on real and personal property may be paid in two installments; the first installment is payable on September first of the year for which the assessment is made, and becomes delinquent on October first; the second installment is payable on the first day the following March and becomes delinquent on April first. Taxes paid on or before the date when they are payable, including both first and second installments, are subject to a discount of two and one-half percent. If the taxes are not paid on or before the date in which they become delinquent, including both first and second installments, interest at the rate of nine percent per annum is added from the date they become delinquent until the date they are paid.

3. Inventories and Prepaid Items

The Civic Center inventories are valued at cost using the first-in/first-out (FIFO) method.

The cost of governmental fund-type inventories are recorded as expenditures when purchased rather than when consumed.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

4. Restricted Assets

Certain proceeds of the discretely presented component units revenue bonds, as well as certain proceeds set aside for the repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

The “regular” account is used to segregate resources accumulated for debt service payments over the next twelve months.

The “reserve” account is used to report resources set aside to make up potential future deficiencies in the regular account.

The “renewal and replacement” account is used to report resources set aside to meet unexpected contingencies or fund asset renewals and replacements.

The “reserve for construction” account is used to report those proceeds of revenue bond that are restricted for use in construction.

5. Capital Assets and Depreciation

Capital assets, which include property, plant, and equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of \$5,000 or more and estimated to have a useful life in excess of one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized in proprietary funds as projects are constructed. Interest incurred during the construction phase of proprietary fund capital assets is not reflected in the capitalized value of the asset constructed, net of interest earned on the invested proceeds during the same period.

Capital assets of the primary government, as well as the component units, are depreciated using the straight-line method over the following estimated useful lives:

<u>Assets</u>	<u>Years</u>
Buildings	40
Structures and improvements	40-50
Infrastructure	40-50
Machinery and equipment	5-10
Vehicles	5-10
Furniture and fixtures	5-10

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

6. Compensated Absences

Full-time, permanent employees are granted and may accumulate vacation, other paid time off and compensatory time benefits in varying amounts to specified maximums depending on tenure and benefit group with the City. Employees are entitled to their accrued vacation, personal time and compensatory time upon termination. All vacation pay is accrued when incurred. There is no liability calculated for unpaid accumulated sick leave unless the employee is eligible for retirement.

When a permanent employee retires, the employee may elect to have a portion of accrued sick leave converted to accrued vacation and/or insurance benefits depending upon which benefit group the employee belongs. Compensated absences are reported as accrued when incurred in the government-wide and proprietary financial statements in accordance with GASB Statement No. 16, *Accounting for Compensated Absences*.

7. Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

8. Deferred Outflow/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Property tax collections and other receivables that are not received soon enough after year end to pay liabilities of the current period, are required to be presented as deferred inflows of resources. For fiscal year ended June 30, 2017, the City reported deferred inflows of resources relating to such unavailable revenues totaling \$420,496.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

9. Net Position/Fund Balances

Net position is classified into four categories according to external donor restrictions or availability of assets for satisfaction of obligations. The City's net position is classified as follows:

Net investment in capital assets	This represents the City's total investment in capital assets, net of accumulated depreciation and reduced by the balances of any outstanding debt obligations related to those capital assets. To the extent debt has been incurred, but not yet expended for capital assets, such amounts are not included as a component of net investment in capital assets.
Restricted net position, expendable	This includes resources in which the City is legally or contractually obligated to spend in accordance with restrictions imposed by external third parties including grantors, donors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.
Restricted net position, nonexpendable	This includes endowment and similar type funds in which donors or other outside sources have stipulated, as a condition of the gift instrument, that the principal is to be maintained inviolate and in perpetuity, and invested for the purpose of producing present and future income, which may either be expended or added to the principal. The City does not have any restricted nonexpendable assets as of June 30, 2017.
Unrestricted net position	This represents resources derived from other than capital assets or restricted net position. These resources are used for transactions relating to the general operation of the City, and may be used at the discretion of the City to meet current expenses for any lawful purpose.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

In the governmental fund financial statements, fund balance is reported in five classifications.

Nonspendable	Inventories and prepaid amounts represent fund balance amounts that are not in spendable form.
Restricted	The restricted category is the portion of fund balance that is externally imposed by creditors, grantors, contributors or laws or regulations. It also is imposed by law through constitutional provisions or enabling legislation.
Committed	The committed category is the portion of fund balance whose use is constrained by limitations that have been approved by an ordinance (the highest level of formal action) of the City Council, and that remain binding unless removed in the same manner. The approval does not automatically lapse at the end of the fiscal year.
Assigned	The assigned category is the portion of the fund balance that has been approved by formal action of the City Council or other official authorized to assign amounts for any amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed.
Unassigned	The unassigned category is the portion of fund balance that has not been reported in any other classification. Only the general fund can report a positive amount of unassigned fund balance. However, any governmental fund in a deficit position could report a negative amount of unassigned fund balance.

The City Council is the government's highest level of decision-making authority. The council would take formal action to establish, and modify or rescind, a fund balance commitment or to assign fund balance amounts to a specific purpose. The government has adopted a revenue spending policy that provides guidance for programs with multiple revenue sources. For purposes of fund balance classification, expenditures are to be spent from restricted fund balance first, followed in order by committed fund balance, assigned fund balance and lastly unassigned fund balance. The government has the authority to deviate from this policy if it is in the best interest of the City.

E. Property Taxes

All municipalities within the State are authorized to levy taxes not in excess of the following maximum levies per \$100 of assessed valuation: On Class I property, twelve and five-tenths cents (12.5 cents); On Class II property, twenty-five cents (25 cents); On Class IV property, fifty cents (50 cents). In addition, municipalities may provide for an election to lay an excess levy; the rates not to exceed statutory limitations, provided at least sixty percent of the voters cast ballots in favor of the excess levy.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

The rate levied by the Municipality per \$100 of assessed valuation for each class of property for the fiscal year ended June 30, 2017, were as follows:

Class of Property	Assed Valuation for Tax Purposes	Current Expense
Class II	\$ 549,274,398	22.00 cents
Class IV	\$ 1,018,090,993	44.00 cents

Tax Incentive Programs

Pursuant to Governmental Accounting Standards Board (GASB) Statement No. 77, *Tax Abatement Disclosures*, the City is required to disclose certain information about tax abatement as defined in the statement. For purposes of GASB No.77, a tax abatement is a reduction in tax revenues that result from an agreement between one or more governments and an individual or entity in which one or more governments promise to forgo tax revenues to which they are otherwise entitled and the individual or entity promises to take a specific action after the agreement has been entered into that contributes to economic development or otherwise benefits the City or the citizens of the City.

The purpose of the tax incentive program is to attract new and existing firms and to promote expansion of existing businesses and industry. It is the intent of the City to provide and create jobs for local and area residents; to create long-term tax base growth through the replacement reconstruction and expansion of existing business and technological facilities, where appropriate, and environmentally sound; to encourage the construction of new facilities, when necessary; and to create the potential for generating new demands for existing local businesses. It is further the intent of the City to encourage substantial investment in new equipment and other personal and real property subject to taxation.

F. Pension Liabilities

The accompanying financial statements have been prepared in conformity with accounting principles generally accepted in the United State of America (GAAP) as applied to local government units, with the exception of balances and disclosure related to current year defined benefit pension plan activity as required to be reported under Governmental Accounting Standards Board Statement No. 68. Plan reporting and accounting schedules for Public Employees Retirement System (PERS), Municipal Police and Fire Fighter Retirement System (MPFRS), and for the Police and Fire Pension and Relief Funds defined benefit pension plans were not completed as of the compilation of the financial statements. Beginning balances have been included in the accompanying financial statements in order to prevent overstatement of net positions. Once final plan reporting and accounting schedules have been completed, City of Huntington's management will determine the effect on the financial statements and related disclosures.

II. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

A. Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund and the Coal Severance Tax Special Revenue Fund. All annual appropriations lapse at fiscal year-end. City of Huntington, West Virginia prepares its budget on the modified accrual basis of accounting.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

The governing body of the City is required to hold a meeting or meetings between the seventh and twenty-eighth days of March to ascertain the financial condition of the city and to prepare the levy estimate (budget) for the fiscal year commencing July 1. The budget is then forthwith submitted to the State Auditor for approval. The governing body then reconvenes on the third Tuesday in April to hear objections from the public and formally lay the levy.

The appropriated budget is prepared by fund, function and department. Transfers of appropriations between departments and revenue related revisions to the budget require approval from the governing council and then are submitted to the State Auditor for approval. Revisions become effective when approved by the State Auditor and budgeted amounts in the financial statements reflect only such approved amounts.

The governing body made the following supplementary budgetary appropriations throughout the year:

General Fund:

Amount	Description
\$ 5,338,042	General Government Expenditure Increase
3,754,888	Public Safety Expenditure Increase
975,374	Streets and Transportation Expenditure Decrease
179,000	Health and Sanitation Expenditure Decrease
98,995	Culture and Recreation Expenditure Increase

B. Excess of Expenditures Over Appropriations

For the year ended June 30, 2017, expenditures exceeded appropriations in the funds listed at the function level:

General Fund:

Function	Amount
Public Safety	\$ 564,344
Health and Sanitation	56,940
Capital Outlay	429,617
Transfers Out	1,117,855

Coal Severance Fund:

Function	Amount
Transfers Out	\$ 40,000

The over expenditures in these functions were funded by other sources within each fund and had no impact on the financial results of the funds.

C. Deficiencies in Net Changes in Fund Balances

The following funds had deficiencies in net changes in fund balances for the year ended June 30, 2017:

Fund	Amount
Community Development Block Grant Fund	\$ 282,262
Major enterprise Fund - Sanitation and Trash	124,040
Nonmajor Governmental Fund - Capital Improvements	398
Nonmajor Governmental Fund - Westmoreland Fire Protection	12,611
Nonmajor Governmental Fund - Jean Dean Public Safety	15,816

Funds sufficient to provide for the excess expenditures were made available from other sources within each fund and the deficiencies had no impact on the financial results of the funds.

D. Deficit Net Position

The Governmental Activities had a deficit net position of \$(222,252,045) as of June 30, 2017. The City has incurred significant debt in excess of anticipated revenues in this and prior years for the Net Pension Liability and Other Post-employment Benefits obligation as estimated within the actuarial evaluations. The City is in the process of developing funding strategies to reduce these debts in the future.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

The amount reported for allowance for uncollectible accounts of the HMDA at June 30, 2017, was determined based upon the City's lien position on certain assets associated with the Ebenezer Medical Outreach, Inc./Douglass Centre Limited Partnership and the Huntington High L.P. loans. It was determined that the assets of the borrowers are not sufficient to make payments on the outstanding loans, and it is doubtful that the payments will be made in the future.

G. Long-term Debt

Tax Increment Financing Revenue Bonds

The City issued bonds where the government pledges income derived from ad valorem property taxes from a specific district to pay debt service. On June 30, 2006, the City issued \$2,450,000 of Tax Increment Financing Revenue Bonds, Series 2006 through United Bank bearing interest rates of 5.50% to 6.75% percent. These bonds are payable solely from the ad valorem property tax collected from the specified tax district. These bonds do not constitute a general obligation of the City and are payable only if the tax revenue is collected from the specified tax district. If the tax revenues are not collected, the City is not required to pay off the debt. The total principal remaining to be paid on the bonds is \$1,036,957. Principal and interest paid for the current year was \$113,043 and \$69,000, respectively.

IV. OTHER INFORMATION

A. Risk Management

The government is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; and natural disasters for which the government carries insurance with Insurance Systems, Inc. for these various risks.

Workers' Compensation Fund (WCF): Private insurance companies could begin to offer workers compensation coverage to government employers beginning July 1, 2010. Workers compensation coverage is self-insured for this entity by the Self Insurance Unit through Risk Management Services Company. The discretely presented component unit (Huntington Municipal Parking Board) has coverage through BrickStreet Insurance.

Liabilities are reported when it is probable a loss has occurred and the amount of the loss can be reasonably estimated.

B. Commitments and Contingencies

Amounts received or receivable from grantor agencies are subject to audit and adjustment by those agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the government's management expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the government's management that resolution of these matters will not have a material effect on the financial condition of the government.

The Department of Environmental Protection forced the City to close its landfill in 1994 because it did not have an underlying liner. Some procedures which are required for closure have been completed, however, additional procedures are still required to complete the closure. Costs to complete the closure and subsequent post-closure costs have been estimated at approximately \$22,017,000. As of June 30, 2017, the Landfill Reserve Fund balance was \$1,476,988 and the General Fund contains \$578,885 in committed funds for landfill closure.

C. Deferred Compensation Plan

The government offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all full-time government employees at their option, permits participants to defer a portion of their salary until future years. The deferred compensation is not available to participants until termination, retirement, death or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property or rights are held for the exclusive benefit of the participants and their beneficiaries.

D. Postemployment Health Care Plan

In addition to the pension benefits described in Note V, the government provides post-retirement health and vision benefits for certain retirees and their dependents. The benefits vary depending on the years of service and sick leave accumulated by the retiree.

1. *Plan Descriptions, Contribution Information, and Funding Policies*

The City of Huntington, West Virginia provides continuation of medical insurance to employees that retire under the WV Public Employees Retirement System and the City of Huntington's Policemen's Pension & Relief Fund and the Firemen's Pension & Relief Fund. The City maintains a single employer self-insured defined benefit health plan administered by Highmark, a third-party administrator. The plan benefits, benefit levels, employee contributions and employer contributions were authorized by the City Council and any amendments to the plan must be approved and authorized by the Council. The plan is not accounted for as a trust fund, as an irrevocable trust has not been established to account for the plan. The plan does not issue a separate report. The activity of the plan is reported in the General Fund, Sanitation and Trash Fund, Community Development Block Grant Fund, Municipal Parking Board and the Municipal Development Authority.

Non-uniform employees are eligible to receive retiree health coverage at the earlier of age 50 with 20 years of service; or age 60 with 10 years of service.

Police and fire uniform employees are eligible to receive retiree health care coverage at the earlier of age 50 with 20 years of service or age 65.

Upon the death of the retiree or active employee, the surviving spouse may continue coverage by paying the full COBRA rate.

The City does not have a practice of increasing the retiree contributions for employees hired prior to July 1, 2000. For GASB 45 purposes, it was assumed these rates remain level in future years.

Employees who retire under the WV Public Employees Retirement System have the option of maintaining the City's OPEB Plan or electing P.E.I.A. insurance. To date, only a few retirees have chosen the P.E.I.A. insurance coverage.

The City's current funding policy for post-employment health care benefits is on a pay-as-you-go basis.

2. Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and includes the type of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to most recent valuation date:

Valuation Date	7/1/16
Actuarial Cost Method	Projected Unit Credit
Amortization Method	Level Percentage Open
Amortization Period	30 Years (Level Percentage Open Group)
Actuarial Asset Valuation Method	Market Value
Actuarial Assumptions:	
Investment Rate of Return	4.50% per year
Projected Salary Increases	3.00% per year
Post-retirement Benefit Increases	None
Inflation	3.00% per year
Health Care Trends	0.50% decrease in fiscal year 2018, reduced by decrements of 0.50% until fiscal year 2025 in medical and continues Rx, and later

3. Annual Other Post Employment Benefit (OPEB) Cost ⁽¹⁾

The City's annual OPEB cost is calculated on the annual required contribution (ARC) of the City, an amount actuarially determined in accordance with the parameters of GASB 45. ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded liabilities over the amortization period. As of the most recent actuarial valuation date, the Plan was not funded. The following table illustrates the components of the City's annual OPEB cost for the year, the amount actually contributed to the Plan, changes in the net OPEB obligation, funding progress, and the covered payroll and the ratio of the UAAL to be covered payroll.

The City's annual other post-employment benefit cost is as follows:

		2017
Annual required contribution	\$	9,676,403
Interest on net OPEB obligation		2,795,754
Adjustment to annual required contribution		<u>(2,648,090)</u>

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare trend rate. Amounts determined regarding the funded status of the Plan and the annual required contributions of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.

The Schedule of Funding Progress, presented as RSI following the notes to the financial statements, is to present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. However, because the City maintains no Plan assets, information relative to Plan assets required disclosures is not applicable.

V. EMPLOYEE RETIREMENT SYSTEMS AND PLANS

A. Policemen's and Firemen's Pension and Relief Funds (PPRF and FPRF)

Plan Descriptions, Contribution Information, and Funding Policies

The City of Huntington, West Virginia participates in two single employer, public employee retirement systems. Assets are held separately and may be used only for the payment of benefits to the members of the respective plans, as follows:

The Policemen's Pension and Relief Fund (PPRF) provides retirement benefits for substantially all full-time police employees. The PPRF's Board consists of a chair, who is the elected mayor, and four members, one of which is the pension secretary, from the municipal police department. The City is authorized in accordance with State Code §8-22 to establish and maintain this plan. Unless otherwise indicated, PPRF information in this Note is provided as of the latest actuarial valuation, June 30, 2017.

The Firemen's Pension and Relief Fund (FPRF) provides retirement benefits for substantially all full-time fire employees. The FPRF's Board consists of a president, who is the elected mayor, and four members, one of which is the pension secretary, from the municipal fire department. The City is authorized in accordance with State Code §8-22 to establish and maintain this plan. Unless otherwise indicated, FPRF information in this Note is provided as of the latest actuarial valuation, June 30, 2017.

Actuarial valuations are required to be performed once every three years per state statute. However, the actuarial valuations can be performed in shorter intervals at the discretion of the PPRF and FPRF's Board.

⁽¹⁾ Amounts reported for Other Post-Employment Benefit cost and liabilities do not include those amounts for Huntington Water Quality Board.

**CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

The investment policies of the PPRF and the FPRF are restricted by State Code as detailed in Note I.D.1 and may be restricted further as determined by the Boards. For additional information relating to the basis of accounting and reported investment values, see Notes I.C., I.D.1., and IV.I.

Memberships of the plans are as follows:

These plans are defined benefit plans. The following is a summary of funding policies, contribution methods and benefit provisions.

	PPRF	FPRF
Determination of contribution requirements	Actuarially determined	Actuarially determined
Employer	Contributes annually an amount which, together with contributions from the members and the allocable portion of the State premium tax fund, will be sufficient to meet the normal cost of the fund and amortize any actuarial deficiency over a period of not more than forty years in accordance with West Virginia State Code §8-22-10, commencing on January 1, 2010, with level dollar payments. The sponsor finances benefits using the Optional funding policy as defined in state statutes. Sponsor contributions are equal to the normal cost, net of employee contributions, plus an amortization of the unfunded actuarial liability net of the premium tax allocation applicable to the plan year.	
Plan Members	7% of covered payroll, 9.5% if hired after January 1, 2010	7% of covered payroll, 9.5% if hired after January 1, 2010
Period Required to Vest	No vesting occurs. If separation from employment occurs the member is entitled to a refund of his/her contributions only.	
Post-Retirement Benefit Increases	Cost of living adjustments after two years of retirement. Adjustment calculated on the first \$15,000 of the total annual benefit in the first year and then the cumulative index for the preceeding year. The supplemental pension benefit shall not exceed four percent.	
Eligibility for Distribution	Members are eligible at the earlier of age 50 with 20 years of credited service or age 65.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017**

Net Pension Liability

The net pension liabilities were measured as of June 30, 2017 for both plans, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2016, projected to the measurement date of June 30, 2017.

Actuarial Assumptions and Rate of Return

The total pension liability was determined by an actuarial valuation as of June 30, 2016, rolled forward to June 30, 2017 for both plans, using the following actuarial assumptions, applied to all periods included in the measurement. The actuarial assumptions used in the values were based on the results of an actuarial experience study for the period July 1, 2015 through June 30, 2016. Additional actuarial assumptions are disclosed in the Required Supplementary Information.

Actuarial assumptions	Policemen's Pension & Relief Fund	Firemen's Pension & Relief Fund

Wage Inflation Rate	1.00%	1.00%
Salary Increases	1 yr. 20%, 2 yrs. 6.5%, 3 yrs. 3.5%, 4 yrs. 2.75%, 5-9 yrs. 2.5%, 10-29 yrs. 2%, 30-34 yrs. 1.25%, 34+ yrs 0%	1 yr. 20%, 2 yrs. 6.5%, 3 yrs. 3.5%, 4 yrs. 2.75%, 5-9 yrs. 2.5%, 10-29 yrs. 2%, 30-34 yrs. 1.25%, 34+ yrs 0%
Investment Rate of Return	5.50%	4.50%

Mortality rates were based on the RP-2014 Healthy Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA.

Rate of return

For the year ended June 30, 2017, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense was 8.32 percent for the PPRF and 7.59 percent for the FPRF. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

The long-term expected rate of return on pension plan investments were determined using a building-block method in which best-estimate rates of expected future real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plans' target asset allocation as of June 30, 2017 are summarized in the following chart:

Net Pension Liability, Reserves and Discount Rate

Current year net pension liability for the PPRF and FPRF are shown below. The annual required contributions were not made by the PPRF or the FPRF.

Reserves

There are no assets legally reserved for purposes other than the payment of plan member benefits for either plan.

Net Pension Liability

The City's net pension liability for the Policemen's and Firemen's Pension and Relief funds are as follows:

	PPRF	FPRF
Total pension liability	\$ 97,792,338	\$ 119,856,975
Plan fiduciary net position	33,533,797	23,716,201
Net pension liability	<u>\$ 64,258,541</u>	<u>\$ 96,140,774</u>
Plan fiduciary net position as a percentage of the total pension liability	34.29%	19.79%

Discount Rate

The discount rate used to measure the total pension liability was 5.5% for the PPFR and 4.5% for the FPRF, and the municipal bond rate was 3.56% for both plans. The projection of cash flows used to determine the discount rate assumed that the plan sponsor would make the statutory required contributions as defined by the funding policy. Based on those assumptions, the pension plans' fiduciary net positions were projected to be available to make all projected future benefit payments, on the behalf of current plan members, for all future plan years. Therefore, the long-term expected rate of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At fiscal year-end, the City reported a liability of \$3,364,705 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The government's proportion of the net pension liability was based on a projection of the government's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2016, the government's proportion was 0.366080%, which was a decrease of .03049% from its proportion measured as of the prior period.

For the year ended June 30, 2017, the government recognized the following pension expense.

	Governmental Activities	Business-type Activities	Parking Board	Development Authority	Total
Pension expense	\$ 405,478	\$ 115,689	\$ 34,026	\$ 11,910	\$ 567,103

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2016 for all plans, using the following actuarial assumptions, applied to all periods included in the measurement.

Actuarial assumptions

Inflation rate	3.00%
Salary increases	3.00% - 6.00%
Investment Rate of Return	7.5 %

Mortality rates were based on the RP-2000 Combined Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on scale AA.

The actuarial assumptions used in the June 30, 2016, valuation were based on the results of an actuarial experience study for the five year period ended July 1, 2014.

The long-term expected rate of return on pension plan investments were determined using a building block method in which best-estimate rates of expected future real rates of returns (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class included are summarized in the following chart:

Discount rate. The discount rate used to measure the total pension liability was 7.50 percent for PERS. The projection of cash flows used to determine the discount rate assumed that the plan member contributions will be made at the current contribution rate and that the government contributions to all plans will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plans' fiduciary net position were projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments were applied to all periods of projected benefit payments to determine the total pension liability.

The following chart presents the sensitivity of the net pension liability to changes in the discount rate, calculated using the discount rates as used in the actuarial evaluation, and what the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1- percentage-point higher than the current rate:

c. Municipal Police Officers & Firefighters Retirement system (MPFRS)

The City of Huntington, West Virginia participates in a state-wide, cost-sharing, multiple-employer defined benefit plan on behalf of hired Municipal public safety employees after January 1, 2010. The system is administered by agencies of the State of West Virginia and funded by contributions from participants, employers, and State appropriations, as necessary. The following is a summary of eligibility factors, contribution methods, and benefit provisions:

Municipal Police Officers and Firefighters Retirement System

Eligibility to participate	City public safety employees not covered under other pension plans.
Authority establishing contribution obligations and benefit provisions	State statute
Plan member's contribution rate	8.50%
City's contribution rate	8.50%
Period required to vest	Five years
Benefits and eligibility for distribution	A member who has attained age 60 and has earned 10 years or more of contributing service or age 50 if the sum of his/her age plus years of credited service is equal to or greater than 70 or age 62 with 5 years of service. The final average salary (five highest consecutive years in the last 10) times the years of service times applicable benefit percentage (2.6%, 2%, or 1%) equals the annual retirement benefit.
Deferred retirement portion	No
Provisions for:	
Cost of Living	No
Death Benefits	Yes

Pension Assets, Pension Expense, and Deferred outflows of Resources and Deferred Inflows of Resources Related to Pensions

At fiscal year-end, the government reported an asset of \$428,554 for its proportionate share of the net pension asset. The net pension asset was measured as of June 30, 2016, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of that date. The government's proportion of the net pension asset was based on a projection of the government's long-term share of contributions to the pension plan relative to the projected contributions of all participating governments, actuarially determined. At June 30, 2016, the government's proportion was 30.307922%, which was a decrease of 10.412187% from its proportion measured as of the Prior Period.

For the year ended June 30, 2017, the government recognized the following pension expense.

Changes of assumptions for public safety pension plans. The actuarial assumptions and methods were recommended by the Actuary, in the report 2016 Experience Review for the Years July 1, 2009 to July 1, 2014, and approved by the West Virginia Municipal Pensions Oversight Board. The actuarial assumptions update is summarized below:

1. For purposes of the funding actuarial valuation, the interest rate used to discount liabilities and projects assets was changed from 6.00% to 5.50% for the PPRF and 5.00% to 4.50% for the FRPF. For purposes of the accounting actuarial valuation, the blended interest rate used to discount liabilities was changed from 5.00% to 3.9795% for the PPRF and 5.50% to 5.00% for the FRPF.
2. The post-retirement mortality assumption was updated for both plans from the 1994 Group Annuity Mortality table to the RP-2014 Blue Collar Total Healthy Annuitant Mortality table, with projected generational mortality improvement using the MP-2014 2-dimensional mortality improvement scales. The disabled mortality assumption was updated to the RP-2014 Blue Collar Total Healthy Annuitant Mortality table, set forward 4 years, with projected generational mortality improvement using the MP-2014 2-dimensional mortality improvement scales. The pre-retirement mortality assumption was updated to the RP-2014 Blue Collar Total Employee Mortality table, with generational mortality improvement using the MP-2014 2-dimensional mortality improvement scales.
3. The wage inflation assumption used to project compensation was decreased from 4.00% to 3.75% for both plans.
4. The service based compensation increase assumption was updated based on observed experience for both plans.
5. General inflation, post-retirement COLA and the increase in State Insurance Premium Tax Allocation changed from 3.00% to 2.75% for both plans.
6. Turnover, retirement rates and disability assumptions were updated based on observed experience for both plans.

CITY OF HUNTINGTON, WEST VIRGINIA
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE FISCAL YEAR ENDED JUNE 30, 2017

NOTE 1 – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of the City and is presented on the accrual basis of accounting. The information in this Schedule is presented in accordance with the requirements of the Uniform Guidance. Therefore, some amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

NOTE 2 – LOANS OUTSTANDING

The loan programs listed below are administered directly by the City of Huntington and balances and transactions relating to these programs are included in the City of Huntington's Community Development Block Grant (CDBG) Fund financial statements. Loans made during the year are included in the federal expenditures presented in the Schedule of Expenditures of Federal Awards. The balances of loans outstanding, net of estimated allowances for uncollectible amounts at June 30, 2017, consist of:

<u>Program Title</u>	<u>Federal CFDA Number</u>	<u>Amount Outstanding</u>
Community Development Block Grants/Entitlement Grant	14.218	\$ 4,242,125
Home Investment Partnerships Program	14.239	2,860,670

NOTE 3 – FEDERAL SUBSIDIES

Federal interest rate subsidies related to the City's Build America Bonds totaling \$ 155,231 are included in revenues from the Federal government in the General Fund, but are not subject to the Single Audit Act or reportable on the Schedule of Federal Awards.

NOTE 4 – INDIRECT COST RATE

The City has not elected to use the 10-percent de minimus indirect cost rate allowed under Uniform Guidance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
REQUIRED BY GOVERNMENT AUDITING STANDARDS**

February 28, 2018

City of Huntington
800 Fifth Avenue
Huntington, WV 25717

To the Members of Council:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the **Municipality of Huntington**, West Virginia (the City) as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the City's basic financial statements and have issued our report thereon dated February 28, 2018.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinion on the financial statements, but not to the extent necessary to opine on the effectiveness of the City's internal control. Accordingly, we have not opined on it.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A material weakness is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the City's financial statements. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Compliance and Other Matters

As part of reasonably assuring whether the City's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

We did note certain matters not requiring inclusion in this report that we reported to the City's management in a separate letter dated February 28, 2018.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

February 28, 2018

City of Huntington
800 Fifth Avenue
Huntington, WV 25717

To the Members of Council:

Report on Compliance for Each Major Federal Program

We have audited the **Municipality of Huntington**, West Virginia (the City) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Compliance Supplement* that could directly and materially affect the City's major federal programs for the year ended June 30, 2017. The *Summary of Audit Results* in the accompanying schedule of audit findings identifies the City's major federal programs.

Management's Responsibility

The City's Management is responsible for complying with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the City's compliance for each of the City's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and the audit requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). These standards and the Uniform Guidance require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on each of the City's major programs. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Programs

In our opinion, the City complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the year ended June 30, 2017.

Report on Internal Control Over Compliance

The City's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the City's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a federal program compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on Uniform Guidance requirements. Accordingly, this report is not suitable for any other purpose.
