

Project overview

Recipients are required to enter projects funded through SLFRF funds as part of their Project and Expenditure Report. Projects can be entered, viewed, and updated from this screen.

Introduction/templates

All projects, regardless of expenditure category, require a set of "standard" data fields. Some of these fields, such as project name and project ID, are static and do not change across reporting periods. Other fields, such as status of completion and total obligations, will change across reporting periods.

Recipient pro

Note: bulk upload templates will appear once you have selected the project expenditure category.

Project overv

You may need to refresh your browser screen to see your new entries.
